NEW YORK DERAND, PRIDAY MARCH 38, 18TA TRIPLE SHIRT

# FINANCIAL AND COMMERCIAL.

The Money Market Stringent, but Rates Steady.

A Further Advance in the Gold Premium.

A Rise of a Quarter and a Reaction of an Eighth Per Cent.

The Government Gold Sale and the Strategy of the Clique.

BANK OF ENGLAND RATE UNALTERED.

The New Secretary of the Treasury and the "April Programme."

A DULL DAY IN STOCKS.

Sharp Rise in St. Paul on Purchases Against the Annual Election.

THE COTTON CROP OF 1872-73.

THURSDAY, March 27-6 P. M. }
On Change to-day cotton was in better demand and Mc. per lb. dearer for both spot and future.

Flour remained steady, while wheat and corn were Brinly held, but very quiet.
THE COPTON CROP OF 1872-773.

A Washington telegram of to-day says that 357 estimates of the cotton crop of 1872-'73 were de-

posited in the "pool" at Augusta, Georgia. The verage of these estimates makes the crop 3,764,888

The bids for the government gold called for a letal of \$5,565,000, the prices offered ranging from 115.27% to 116.33, the latter extreme being bid for the entire \$1,500,000, which was awarded accordingly in one lot at that price. Another bid for the

THE PORBIGN MARKET.

The Bank of England directors at their regular weekly meeting to-day made no further alteration in the discount rate, the minimum of which re-mains at 4 per cent. The London quotations show teadiness in consequence, consols being about as they were at the close yesterday, while United States bonds manifest firmness and a little im-

provement. The bullion account of THE BANK OF ENGLAND decrease for the week of £945,000, and that of the Bank of France, which, for some reason unexplained, is reported a day earlier than usual, an increase of 4,000,000f. The large decrease in the er case is an explanation of the advance in the rate of discount, but not of the special meeting of the directors; and the gain in france acof the directors; and the gain in francs acconfinent orders to buy running the price up to the for an improvement in French rentes to 59% this afternoon. Hannibal and St. Joseph de-56.62. Erie shares were strong on the news from paseing the bill allowing the company to collect fare at the rate of 3 cents per mile, and advanced

The money market was stringent, but steady in its stringency, the rates on call ranging within imost precisely the same limits as on the previous day\_viz. 142 to 1-16 and interest, the market be ing a shade harder and leaving off at 1-16, or 1-32 higher than on Wednesday. Commercial was nominal. Foreign exchange was dulf and for sight terling % higher, the asking quotations of the prime drawers being 108% and 109%. Sight bills were firm, but sixty-day bills were weak, and were ered at 108% on the street at the close. The ifference of % between long and snort bills is due. of course, to the advance and possible further adrance of the Bank of England rate.

GOLD STRONG-115% A 116%. The gold market opened barely steady, under ome disappointment at the announcement that the Bank of England rate had not been further advanced, but soon became strong under purchases to cancel mercantile borrowings of gold, the "shorts" being, a great many of them, quite timid and afraid to remain on the bearish side of the market, pending the eventualities of the present policy of the Bank of England, however potential or feeble that policy may prove to be in its medification of the gold premium. A relapse from this strength was succeeded by still greater firmness on the discovery that the highest bid for the government gold and one calling for the whole amount had been filed by

THE SYNDICATE BROKERS, whose action was interpreted to mean an important change in the gold-selling policy of the new Secretary of the Treasury (who would soon have an opportunity of putting his views into practice, as the April programme ought in the ordinary course of things to be ready by next Sunday night). On the other hand, it was said that they had been employed in their regular business capacity as brokers to buy the gold for the clique in order to help the speculation of the latter by the effect their bidding would have upon the market. In se far as this was the object of their alleged

COMPLICITY WITH THE POOL the result was eminently satisfactory, for the price of gold advanced to 116%, as against 115%, the opening price. The advance in sight sterling also contributed to the rise, which was maintained pretty steadily until near the close, when the sales fell off & a 14 per cent. The legal tender circufor the day being a contraction to the extent of \$83,000, the total amount outstanding being \$358,487,000. The course of the market is shown in the table :-

In the gold loan market the rates ranged from

7 per cent for carrying to flat for borrowing. The operations of the Gold Exchange Bank were 
 Gold cleared.

interest, and \$2,200 on account of redeemed five-THE RAILROAD BONDS.

ontinued firm. The Erie mortgages were all in steady request in the vicinity of 100. Union Pacifics were heavy and lower, and Central Pacifics better and firm. Terre Haute firsts sold at 101, and Morris and Essex seconds at 98. The following

were the bids at the call, as amended by prices in

subsequent dealings :-

SOUTHERN SEQUENTISS FIRM.

The Southern State bonds were quiet and generally firm. The Tennessees railed to 80% and the Missouri sixes were held at 94. The Virginia consols were only steady at 56. The following were the closing prices:—Tennessee, ex coupon, 80% a 80%; do., new, 80% a 80%; Virginia, ex coupon, 44 a 48; do., registered stock, old, 35 a 40; do. sixes, consolidated bonds, 56 a 56%; do. do., deferred scrip, 13% a 14%; Georgia sixes, 70 a 76; do. sevens, 88 a 90; North Carolina, ex coupen, 30 a 32; do. to North Carolina Railroad, 50 a 61; do. funding, 1886, 20 a 23; do. do., 1868, 19 a 20; do., new, 17 a 19; do., special tax, 13 a 14; Missouri sixes, 93% a 94; do. Bannibal and St. Joseph, 91 a 91½; Louisiana sixes, 43 a 47; Alabama fives, 57 a 60; do. eights, 80 a 85; South Carolina sixes, 30 a 40; do. new. January and July, 17½ a 19; do. do., April and October, 22 a 23; Arkansas sixes, funded, 39 a 45.

GOVERNMENTS ETRONG.
Government bonds were strong in sympathy with the lurther rise in gold, and prices advanced % a % per cent, the improvement being more conspicuous in the ten-forties, the long sixes and the 67's. On the other hand the new fives and the currency sixes were lower. It was quite natural that the currency sixes should suffer more or less depres-sion from the advance in gold; but we threw out the suggestion whether the reaction in the new fives, whose course was the opposite of that of the ten-forties, the rival five per cent gold issues, was not the consequence of the eagerness of the Syndicate brokers to get the government gold to-day and of their willingness to pay more than any

body else for it—a disparagement of THE GOVERNMENT CREDER, which, direct or indirect as it may be, comes with ill grace from such a course. The following were the closing quotations:—United States currency sixes, 114% a 114%; do. do., 1881, registered, 117% a 118; do. do., coupon, 120% a 120%; do. five-twenties, registered, May and November, 117% a 117%; do. do., 1862, coupon, do., 117% a 117%, do. do., 1884, do. do., 117% a 117%; do. do., 1865, do., do., 118 a 118%; do. do., 1867, registered, January and July, 116% a 116%; do. do., 1868, coupon, do., 116% a 116%; do. do., 1868, coupon, do., 116% a 116%; do. do., 1867, do. do., 118% a 118%; do. do., 1868, do. do., 117% a 117%; do. ten-forties, registered, 111% a 112; do. do., conpon, 112% a 112%; do. fives of 1881, registered, 114% a 114%; do. do. de., coupon, 114% a 114%.

STOCES DULL AND STRANG The stock market was dull and quite steady, the speculative element being disposed to stand still and watch the movement in the Gold Room. The only feature of note or interest was an advance of 21/2 per cent in St Pani to 59%, a further result of the award of the St. Croix land grant already referred to, and, more recently, it was reported, of purchases by Jay Gould with a view to placing himself in the Board of Directors at the election in June next, when, under the classification system, one-third of the Board will go out of office. It was said furthermore that Jay Gould, whose interests in connection with Northwestern make it quite likely that he is anxious to be represented in the St. Paul direction, had a rival buyer in Henry N. Smith, and that the two men encountered each other all of a sudden, like the combatants in the famous Western "yarn" of a duel in the dark, their

Cotton Pirmer; Receipts at the Ports, 5,883 Bales-Flour Steady-Wheat Firm-Corn and Oats Quiet-Pork Steady-Lard and Bacon Firmer-Groceries Quiet-Petro-leum Closed Easier-Spirits Turpentine Firmer-Rosin Steady-Whiskey Unchanged.

COMMERCIAL REPORT.

THURSDAY, March 27-6 P. M. The merchandise markets were generally steady, under a fair demand; but there was some irregularity, and less doing in some departments. There was almost no movement in flour and grain. Stocks are very light, and holders accordingly demanded full prices; but there were few orders unexecuted, and these were generally at limits below the current nominal quotations. These remarks apply with equal force to flour and wheat. Corn was quiet, but very firm, holders generally in-sisting upon higher prices. Oats were less active, but firmer, especially for ordinary new mixed. Whiskey remained quiet. There was greater buoyancy in the provision markets, particularly bacon and lard, which were in demand and decid edly higher, the former being somewhat excited and nominal. Cotton attracted more attention and the market ruled firmer. Groceries continued quiet, except for sugar, for which the demand was fair at former prices. Spirits of turpentine was active and firmer, while rosin ruled about steady. Petroleum was inactive, and closed showing considerable weakness.

COFFER.-The market continued quiet but firm for all descriptions. We have only to note a sale at Baltimors of 3,000 bags Rio, ex. Adelaide, on private terms. We quote:—Rio, ordinary cargoes, 16½c. a 16½c.; fair cargoes, 17½c. a 17½c.; good cargoes, 18c. a 18½c.; prime cargoes, 18½c. a 18½c.; Java, government bags, 20c. a 21c.; do. 185gc.: a 185gc.; Java. government Dags, 20c. a 12c.; do, grass mats 20c. a 22c.; Singapore, 185gc. a 175gc.; Ceyion, 175gc. a 185gc.; Maracaibo, 18c. a 19c.; Laguayra, 185gc. a 20c.; Jamaica, 175gc. a 185gc.; St. Domingo, 16c. a 185gc.; Porto Rico, 19c. a 20c.; Costa Rica, 18c. a 20c.; Mexican, 18c. a 19c.; Manila, 175gc. a 185gc.; Angostura, 175gc. a 185gc.; Savanilla, 175gc. a 185gc.; Curacoa, 175gc. a 185gc., cold. per lb. 60 a 90 days credit.

-Wheat was quiet, but nominally unchanged, prices be-
ing firmly held; the only sales were about 8,000 bushels,
at \$1 50 for interior Spring, \$1 65 for white Spring and
\$2 20 a \$2 25 for fancy white Michigan. Corn was quiet,
but firm; the sales toot up about 25,000 bushels, at 66%c. a
but firm; the sales toot up about 25,000 bushels, at 66%c. a 66%c, for Western yellow, 68c. a 70c. for do. white, 66%c.
for Jersey yellow, affoat: 54%c, bid for old Western
mixed, in store. Other descriptions were nominal. Oats
were firm for new mixed, but not very active; the sales
were confined to small lots, at 48c. a 50c. for mixed, on
the track: 52c. for new white, on the track: 471cc a 44c.
for black and 53c. a 55c. for choice white; old quoted at
51 ac., in store. Bariey and rye were neglected and nomi-
nai: generally held above the views of buyers.
FREIGHTS Room being scarce by vessels on the berth,
there was very little accomplished in that line, but rates
exhibited no material change. The inquiry for vessels
for charter was fair, particularly for those addented to the
petroleum trade. About former rates were current. The
engagements were :- To Liverpool, by sail, 700 bales cot-
ton at 5-16c, a 1/d. : 250 hhds, of tallow and 1,000 tierces of
lard at 30s. To Lendon, by sail, 37,500 bushels grain at
8144. 1,200 bbls. pork at 4s., and 1,000 bbls. flour at 2s. 6d.
To Antwerp, 500 boxes bacon at 41s. 3d. The charters in-

the name and style of Geo. Davis & Co., and will continue the transportation business, making railroad iron
and other coarse freights a specialty, through canal and
lakes and interior points to any destination. Office 61
Liberty street. GEO, DAVIS,
N.W. BLOSS.

# REAL ESTATE WATTERS.

Still no change for the better. There was a goodly number of spectators assembled at the Exchange, and the sales of the day were somewhat more spirited, yet the prices obtained cannot be accepted as standard for the general value of property. Everybody now hugs the idea that business, on and after the 2d prox., will become brilliant. and that the disposal of the "Post estate" will form the basis of future operations, as far as values by dollars and cents is concerned. It is a good thing that there is something to look ahead to, for a revival in real estate transactions; activity is sadly needed, and we cannot see any good reason why the sudden check should have occurred, unless the reasons we advanced, namely, a stringent money market and the unsettled weather has caused the

market and the unsettled weather has been same.

Mr. V. K. Stevenson, Jr., reports having sold yestesterday the four story high stoop brown stone dwelling house No. 564 Fifth avenue, near Portysixth street—size 18.4x56x75—including farniture, to Mr. Charles L. Cornish, for \$70,000. A small portion of the consideration paid on the above purchase was some suburban real estate, which was, however, appraised at a cash valuation.

Annexed is a first of the public sales effected yesterday at the Real Estate Exchange:—

Brooklyn Real Estate Sales.

# PIRE IN NINTH AVENUE.

The Loss About One Thousand Dollars. A fire broke out at half-past four o'clock yesterday morning in the three story frame building 117 Ninth avenue that caused a loss of about one thousand dollars. The flames burst out upon the first sand dollars. The names burst out upon the first noor, occupied by William H. Lonsberry, a liquor dealer. His stock was damaged to the extent of \$500; no insurance. The building was injured to the extent of \$100; insured for \$3,000 in the Rutgers. The adjoining house, No. 119, was also slightly injured, and the steck in it damaged to the extent of \$200; insured for \$1,000 in the St. Nicholas Insurance Commany.

# DISEASED MEAT IN NEWARK.

Mention has already been made of the prevalence in some parts of New Jersey of the cattle disease, and a movement is now making in the Legislature to have measures taken to root it out. The necessity for some action was demonstrated by a case in Newark yesterday. In the slaughter house of Isaac Schwatz was found the carcass of a diseased Isaac Schwatz was found the carcass of a diseased cow, which had been purchased for \$15 by one Schoohaus. Nobody knew anything about the corrupt character of the animal, so all declared, and, strange to say, no criminal proceedings were taken against anybody by the authorities. The carcass was seized, though, and carted over to the "dead norse man." If the authorities would keep a sharp eye on the cattle dealers, siaughterers and butchers, and punish them when found out, putrid beef would not be offered for sale so readily as ir the case how.

### THE BULL'S HEAD BANK.

The Depositors Accept the Proposed Plan for Reorganizing the Bank-They Subscribe for \$98,000 of the New Stock Capital-Significant Hints About the Late Officers of the Bank-The Bank To Be Reopened on or About the 7th of April-Resolutions to Punish the Defaulters Drawn Up and Adopted.

lished yesterday morning, the depositors of the Bull's Head Bank assembled at Teutonia Hall, Sixteenth street and Third avenue, to hear the report of the committee, to whom they had entrusted the onerous duty of forming a scheme to reorganize

the institution.

The hall, which is a very large one, was well filled? the number present exceeding that at either of the previous meetings. Mr. Cameron, the Chairman called the meeting to order at ten o'clock, and after a little preliminary business proceeded to make an official report of the doings of the Confer-ence Committee, of which he was Chairman also As his admirable scheme for reorganizing was pub-lished yesterday, he was greeted with prolonged cheers as he took the floor, and several times during the reading of the report he was interrupted

by the applause of those present.

After detailing the primary doings of the contmittee the report told of how the scheme published below was born and matured. To Mr. Cameron, who is a very young man, belongs the honor having invented A NEW SCHEME FOR RESUSCITATING COLLAPSED

BANKS.

Besides being novel his plan of reorganization is one which not only secures but benefits the depositors. The plan, its acceptance by the stockolders, and the opinion of Mr. Williams, an old authority on banking matters, were detailed. The pian of organization is as follows:—A commisted of five persons has been appointed to do the work In this committee stockholders and depositors are represented. The mode of procedure is after this manner:-Those holding the present stock of the bank are to turn it over to this commit-tee, who are instructed and empowered to raise a preferred stock capital of \$300,000, oneraise a preferred stock capital of \$300,000, one-half of which is to be offered to the stockholders and the other half to the depositors. This preferred stock is to be entitled to semi-annual dividends of ten per cent, and the old or deterred stock is to have no voice in the management of the bank untif such time as the carnings of the bank shalf placed them both on an equal footing. The idea of placing the new stock in the hands of the depositors is an excellent one, inasmuch as it secures the bank from a second collapse when its doors are thrown open, for those who have capital stock in the concern will not, when the bank is opened, ask for them money and irrevocably weaken the bank, which will be in a delicate state of health after its late severe trial. The plan has never before been tried, and on the liberality of the depositors its success depends.

severe trial. The plan has never before been tried, and on the liberality of the depositors its success depends.

THE ISSUE AT STAKE
in its success may seem to concern those having money in this institution alone; but more than this is to be looked for, as it starts a precedent which will relieve the depositors in all savings institutions from the tyranny of receivers and the vexation of tardy legal methods.

The report was accepted and adopted and the subscription lists opened. Before the drawing up of the checks for the stock Mr. O'Reilley made a motion to have all the checks drawin out to the order of the chairman, Mr. Cameron, for the deposits in the bank. Mr. Mott amended or amplified the resolution so as to have the committee also with the chairman and to allow him to use the own discretion in the premises. The amendment was unanimously carried. The subscriptions were then opened and stock to the amount of NINETY-RIGHT THOUSAND PIVE HUNDRED AND TWENTY DOLLARS SUBSCIEDED.

Mr. Cameron subscribed for \$10,000 and Mr? Morrell for \$5,000. The committee will be sixting at the Ashland House until further notice.

During the meeting Mr. Cameron offered the following resolution:—

Resolved, That by the closing of the Bull's Head Bank—a concern which has stood high in the confidence of the business community—the depositors are not enly seriously injured and embarrassed at the effect of such closing, in view of the heretofore high standing of the bank, must be to shake the coundence of the community at large in the safety of banks generally. And as the managers of moneyed institutions and the general public have, in our estimation, treated in too lenient a spirit those who, while they were guity as theves in the worst sense and deserving of punishment as such, have been allewed to go unpunished under the cofficient name of defaulters. We, ou the contrary, recognize the danger of such a precedent, do heroly declare it to be our inflictible intention to trace the responsibility of the present condition of the Bull's H

The resolution was unanimously carried amic ond cheers.

Mr. Cameron then offered the following, which

Resolved, That the depositors of the Bull's Head Sanks are obliged to the members of the press who have so kindly given their assistance in advancing our interests; and that we tender our hearty thanks for their dising terested efforts in our behalf.

terested efforw in our behalf.

SIGNIFICANT HIMTS.

After a few rambling remarks by the depositors who were anxious to have the bank officials hanged, Mr. Cameron rose and made a few significant hints which have a decidedly Williamsoniam flavor. He said that he had called upon a certain gentleman whe said if he could get a good lawyer to stand between him and the law, he would not purchase one cent's worth of the stock.

Here loud cries of "Name him!" "It is Williams son!" &c., came from the meeting.

Mr. Cameron declined to name any one, preferring to leave a space for the scope of the depositors imaginations.

A gentleman now moved that Mr. Cameron be

imaginations.

A gentleman now moved that Mr. Cameron be elected President of the reorganized bank, but as that gentleman declared the action premature it was withdrawn, Mr. Cameron accepting it as a compliment.

The subscription on the part of the stockholders was at four o'clock yesterday afternoon nearly filled, and it is hoped that the depositors' will be completed to-day.

# THE LABOR MOVEMENT.

The Excitement in Reference to a Strike Still Continuing-Plans Yet Undevel-oped-The "Bosses" Anxiously Watched. The excitement among the various trades in the city relative to the proposed strike continues. The masons, the carpenters and the branches of labor engaged in the building trade are on the qui viva waiting for any developments that may occur, and the utmost anxiety is manifested to ascertain what the action of the operators is likely to be. The masons have a very strong organization, and in the event of being forced to it, they purpose to make a bitter fight. The great point at issue is the intention on the part of some of the bosses to bring about

THE TEN HOUR SYSTEM AGAIN,

some of the bosses to bring about
THE TER HOUR SYSTEM AGAIN,
which was partially overthrown in the great movement last Summer. In one or two instances the
bosses have returned to the old system, naving
procured men from other States to do the work,
if their experiment should prove successin their
example will doubtless be followed by the other
contractors. The feeling among the carpenters
and joiners is not so strong now as it was a week
ago, the impression gaining ground that for the
present no attempt will be made to lengthen the
hours of labor. There is
NOT MUCH TROUGLE ABOUT WAGES,
the employers having stated that they are willing
to continue at the present rate if the men are
equally satisfied. The rate of wages which carpenters now receive is about \$5.50 per day. Members of the same trade in Brooklyn only receive \$5
per day.

per day.

The firemen and helpers employed in the various gasworks are still agitating the contemplated strike. Very little information can be procured as to what their measures will be. The cabinet makers and pianoforte makers have, as yet, manifested no intention of renewing the struggle.

### SUICIDE BY TAKING POISON. Lack of Employment the Cause.

Coroner Young yesterday held an inquest at 146 West Nineteenth street, on the body of Michael J. Hackett, a bartender, twenty-six years of age, who died at the above number from the effects of a dose of poison which he had swallowed with surcidal intent. Deceased had been out of employment for the last five or six months, which maio him very despondent, and those best acquainted with him thought, at intervais, that he was not in his right mind. On Monday evening, Hackett was with some old friends and companions, who used all their efforts to rouse nim from his condition of despondency and make him cheafful again, but in vain. At length one of the men asked Hackett to take a drink, and being furnished with a glass of beer he stepped to the and of the counter, which extended to the rear of the room, and while there alone, as subsequently appeared, swallowed a quantity of Faris green which he hastily mixed with his beer. The fact of his taking the deadly dose was not known till some hours afterwards, when Hackett was seized with vomiting and the nature of the poison discovered. A physician was summoned and antidotes administered, but the poison had taken fatai effect, deading being the result. The jury found that deceased committed sucide while temporarily deranged, Friends took charge of the remains for interment. ment for the last five or six months, which maid
